# Prop 84 Stormwater Grant Program Implementation Workshop for New Grantees

Tuesday, October 30, 2012 Sacramento, CA

## **SWGP Post Award Workshop**

### 1. Welcome

- 2. Grant Agreement
- 3. CEQA
- 4. Measuring Project Performance
- 5. Invoicing & Reimbursement
- 6. Reporting
- 7. Fraud Prevention and Detection
- 8. Summary

### Remember Your Timeline

- Grant Agreement February 2013
- CEQA/Permits May 2013
- Construction Dec. 2015
- Monitoring Winter 2014/15
- Final Report (approved) March 2016
- Final Invoice May 1<sup>st</sup>, 2016

## Questions?

Email questions to: DFA\_Grants@waterboards.ca.gov

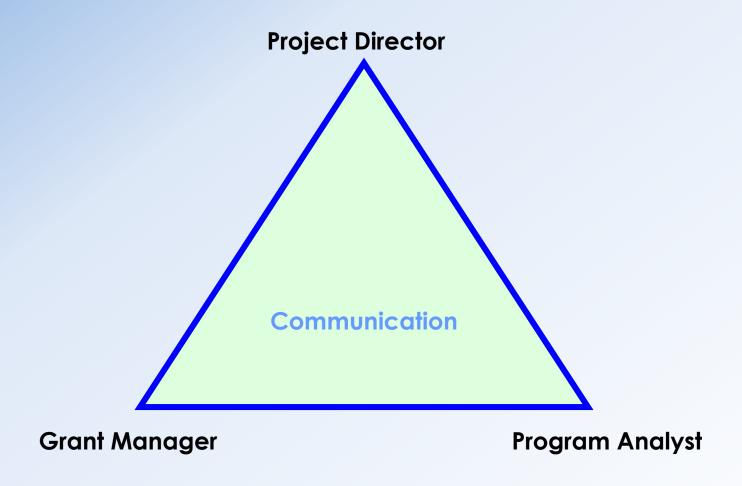

## **SWGP Post Award Workshop**

- 1. Welcome
- 2. Grant Agreement
- 3. CEQA
- 4. Measuring Project Performance
- 5. Invoicing & Reimbursement
- 6. Reporting
- 7. Fraud Prevention and Detection
- 8. Summary

## **SWGP Post Award Workshop**

### **Grant Agreement**

- a) Project Director, Project Manager, & Program Analyst
- b) Welcome Email
- c) Timeline
- d) Scope of Work Exhibit A
- e) Deliverables Exhibit A
- f) Budget Exhibit B
- g) Exhibits C and D
- h) Resolution

### Welcome Email

- 1. Project Director Certification (PD Cert)
- 2. Payee Data Record Agency's FEIN Number
- 3. Sample Resolution

## Resolution

### **Sample Resolution**

(date)

BOARD OF DIRECTORS (organization)

A RESOLUTION AUTHORIZING ENTERING INTO AN AGREEMENT WITH THE STATE OF CALIFORNIA AND DESIGNATING A REPRESENTATIVE TO SIGN THE AGREEMENT, AND ANY AMENDMENTS THERETO, FOR THE (project title) PROJECT.

Whereas, the Board authorizes (organization) to enter into an Agreement with the State of California; and

Whereas, the Board authorizes \_\_\_\_\_\_ (title, no name), or designee, to sign the Agreement, and any amendments thereto; and

Now, therefore, be it resolved, that the <u>(organization)</u> Board of Directors hereby adopts Resolution <u>( # )</u> on <u>(date)</u>.

#### **CERTIFICATION**

I hereby certify that the foregoing Resolution (_#) was duly and regularly
adopted by the Board of Directors of the (organization) at the meeting thereof
held on the () day of (), 20XX, motion by (member name) and
seconded by (member name), motion passed by the following roll call vote:

Ayes: Noes: Abstained: Absent:

Attest:

### **Execution Process**

Grantee Contacted with Initial Instructions
Admin Forms and Budget are Requested

SOW and Budget Drafted by PA and GM Forwarded to PD for Approval

3-Way Teleconference with PD, GM, and PA

Agreement is Finalized

Final Agreement Routed Internally for Approval Emailed to PD for Signature

Once Returned, Routed for State Water Board's Execution Fully Executed Agreement Sent to PD

## Scope of Work – Exhibit A

- A. Plans and General ComplianceRequirements Reporting
- **B.** Project-Specific Requirements

# Table of Items for Review [this is only a sample,

edit as needed]

## **SWGP Post Award Workshop**

- 1. Welcome
- 2. Grant Agreement
- 3. CEQA
- 4. Measuring Project Performance
- 5. Invoicing & Reimbursement
- 6. Reporting
- 7. Fraud Prevention and Detection
- 8. Summary

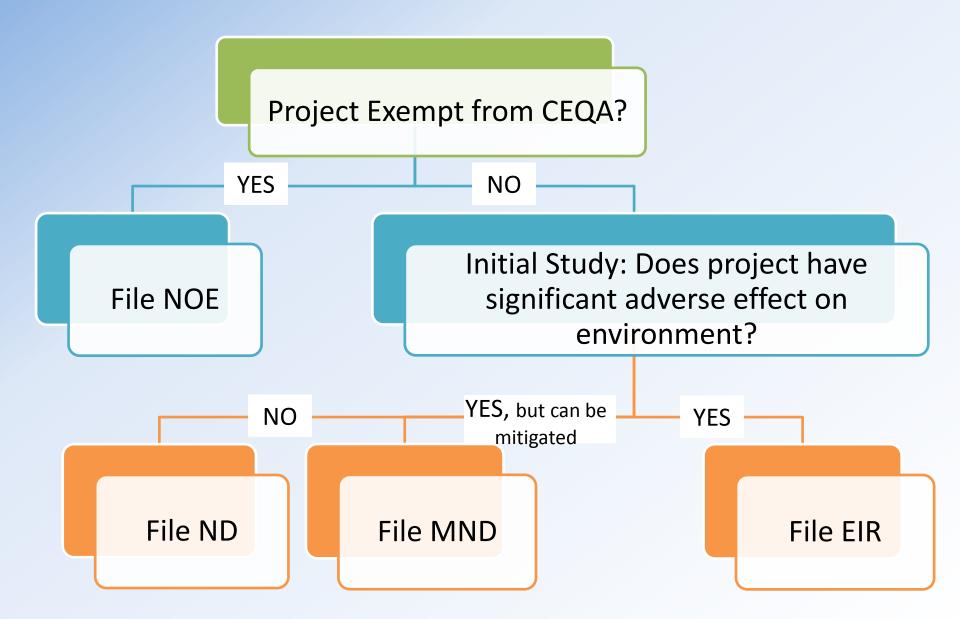

## CEQA

- California Environmental Quality Act (CEQA)
- ALL State Water Board grants are subject to CEQA

## CEQA - Who prepares CEQA Documents?

- The Lead Agency (usually the grantee) prepares and circulates environmental documents
- The Lead Agency must be a public agency (i.e. local, regional or state government)
- The State Water Board will act as the Lead Agency for non-governmental organizations

## **CEQA – Environmental Documents**

## CEQA – Where to find Help

- CEQA Guidelines:
  - http://ceres.ca.gov/ceqa/docs/CEQA Handbook 2012 wo covers.pdf
    - See Appendix A for CEQA Process Flow Chart
- CA Natural Resources Agency:
  - http://ceres.ca.gov/ceqa/
    - See FAQs
- State Clearinghouse:
  - http://www.opr.ca.gov/m\_stateclearinghouse.php
  - Submitting Environmental Documents to OPR

## CEQA – NOE: Items for SB Review

- Submit to Grant Manager:
  - 1 page Project Description
  - Permits
  - Signed, date-stamped copy of NOE
  - State Water Board NOE Concurrence Form

## CEQA: NOE Concurrence Form Example

#### Notice of Exemption (NOE) for Grant Projects State Water Resource Control Board Concurrence

Agreement Number: 07-507-550-2

Grantee: Regional Water Management Foundation
Lead Agency: Santa Cruz County Planning Department.

Date NOE Filed: 7/30/12

County: Santa Cruz

Santa Cruz

State Clearinghouse #: 2012-088136

Project Title: Scotts Creek Bank Stabalization Project

Project Location (attach map, if applicable):

Project Description: The re-contouring of the stream bank and re-direction of the stream flow are proposed in order to prevent a recurrence of the scour, bridge destabilization and bank failure that have occurred during the past two winter storm seasons. Given the history of undercutting and destabilization of the stream bank in the project area, the probability is high that repeated failure will occur during the next rainy season. The proposed measures are necessary to prevent future short-term emergency occurrences, which would threaten the structural integrity of the bridge, as well as, the water quality and habitat value of a stream known to be populated by listed fish species.

OPR State Clearinghouse Number

Categorical/ Statutory Exemption

CEQA Categorical/Statutory Exemptions: Check all exemptions the project meets:

Section 15301: Class 1 Existing Facilities	Operation, repair, maintenance and/or minor alteration of an existing structure
☐ Section 15302: Class 2 Replacement or Reconstruction	Replacement or reconstruction of an existing structure where the new or replacement structure is located on the same site
Section 15303: Class 3 New Construction or Conversion of Small Structures	Construction or remodification of a limited number of new or existing small structures
Section 15304: Class 4 Minor Alteration to Land	Minor alteration to the condition of land, water and or vegetation with no negative impact to existing scenic trees
Section 15306: Class 6 Information Collection	Basic data collection and research with no disturbance to an environmental resource
Section 15262: Feasibility and Planning Studies	A project involving only feasibility or planning studies
Section 15269: Emergency Projects	A project that is deemed an emergency as described in Section 15269
Section 15333: Class 33 Small Habitat Restoration Projects	Project is five acres or less and ensures a positive impact for fish, plants or wildlife
Other	Provide Section number and description:

Funding Sources (check all that ap 2005-06 Consolidated Grants ☐ Other ☐ → Identify:	007-08 CWA 319 🗆	IRWMP  Northern Santa Cruz Co.
Grant Agreement No(s): 07-507-58 Grantee: Regional Water Manager Sub-grantee: Santa Cruz County F Lead Agency: County of Santa Cru Project Name: Molino Pond Restor Project Location: Molino Creek Wa	ment Foundation (Found Resource Conservation I Iz (County) Pation Project (Project)	lation)
Purpose of the Project: The hydrol	logic and geomorphic re	estoration of Molino Pond to establish

Purpose of the Project: The hydrologic and geomorphic restoration of Molino Pond to establish a more suitable habitat for the California red-legged frog (CRLF) and other wildlife.

Project Description: Molino Pond is a small off-channel pond that receives water from Molino Creek, and was considered a high quality habitat for the CRLF until agricultural stream diversions became disallowed and the pond lost its main water source. Without stream flow, the pond dries out in early to mid-summer before the CRLF has time to undergo metamorphosis.

#### The Project will:

- Build a concrete still basin with a piped diversion to direct 10-15% of creek flows to Molino Pond. Flow will only be diverted when the water in the creek exceeds minimum stream flow levels.
- Install two piezometers in Molino Creek to ensure adequate stream flow subsequent to Project completion.
- Install pipe to convey water to Molino Pond. The closed conduit diversion pipe will run above ground except through the existing agricultural road.
- Install two engineered outlet structures.
- Construct a small pier structure to ensure no backwatering or blocking of the outlet.
- Install an impervious clay material liner and trench at the downstream end of the pond.
- Grade outlet area to create deeper pools to ensure that water will be maintained through late summer, allowing for the completion of CRLF metamorphosis.

## CEQA - ND/MND SB Staff Report

### Permits

### **MMRP**

#### Items Reviewed:

- 1. Mitigated Negative Declaration 2010 Amended Master Permit
- 2. Regional Water Quality Control Board (RWQCB) 401
- 3. Department of Fish and Game 1600
- 4. County/Coastal Zone Master Permit
- 5. United States Army Corps of Engineers Regional General Permit
- 6. Unites States Fish and Wildlife Service's Biological Opinion
- 7. National Marine Fisheries Service's Biological Opinion

Mitigation Requirements: Disturbed area shall be monitored for non-native plants; any invasive non-native plants will be removed using best management practices. Re-vegetation will be limited to plantings from "List of Preferred Plant Species". Erosion control measures will be applied to all disturbed earth surfaces. Stockpiled materials during Project construction will be managed to prevent discharge to waters. All stored material and vehicles must be kept at least 100 feet away from waters, and oil absorbent material must be kept on site. Only sandbags or clean gravel will be used for artificial obstruction.

### Additional Information:

- RWQCB 401 Certification finds that if the Project is implemented as described, along with following their additional mitigation requirements and conditions given, the Project will positively affect water quality.
- RCD finds the Project has no potential to impact a floodway or floodplain.
- Molino Pond is part of the Partner's in Restoration Permit Coordination Program (Program) for which activities are permitted under a Master Permit Program involving multi-agency coordination.
- The permitted Program practices were thoroughly vetted by local, state, and federal resource agencies, and conditioned to comply with environmental regulations at all levels. All projects conducted under the Master Permit are for the chhancement of environmental resources.

ND/MND with Initial Study

## CEQA – ND/MND SB Staff Report

NOD, filed with County & OPR

### FINDINGS:

- The County is the lead agency under CEQA for the Project and the RCD is the responsible agency.
- The County completed an Initial Study/Mitigated Negative Declaration and approved a
  five-year Master Permit for Partner's in Restoration Permit Coordination on April 13,
  2005. In 2010, the County approved a five year extension of the Master Permit Program
  until 2015.
- 3. The RCD filed a NOD with the Santa Cruz County Clerk on November 22, 2011.
- 4. The RCD filed a NOD with OPR on November 22, 2011.
- State Water Board staff reviewed and considered the environmental information and determined that the Project will not result in any significant adverse water quality impacts.

Deputy Director Approval

> Elizabeth L. Haven, Deputy Director Division of Financial Assistance

> > Sarah Gatzke, DFA Carolyn Saputo, DFA

Finding: No significant adverse water quality impacts

Date

## CEQA – EIR: Items for SB Review

- Submit to Grant Manager:
  - 1 page Project Description
  - Notice of Preparation (NOP)
  - Draft and Final EIR
  - Public Review Period comments with responses
  - Resolution
  - The final MMRP and Statement of Overriding Consideration (SOC; if applicable)
  - Notice of Determination (NOD)

## **CEQA – Important Reminders**

- All State Water Board grant projects are subject to CEQA
- State-funded activities subject to CEQA shall not begin until the State Water Board's CEQA findings are approved

## Questions?

Email questions to: DFA\_Grants@waterboards.ca.gov

## **SWGP Post Award Workshop**

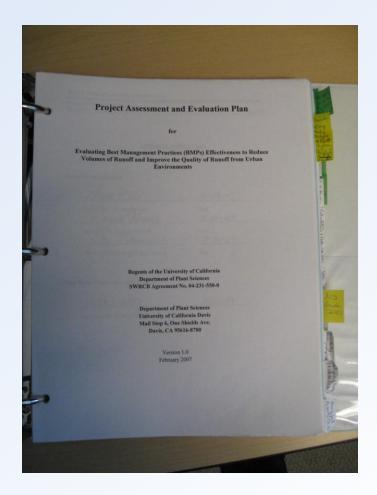

- 1. Welcome
- 2. Grant Agreement
- 3. CEQA
- 4. Measuring Project Performance
- 5. Invoicing & Reimbursement
- 6. Reporting
- 7. Fraud Prevention and Detection
- 8. Summary

## Performance Measures

- Project Assessment and Evaluation Plan (PAEP)
- Monitoring Plan (MP)
- Quality Assurance Project Plan (QAPP)

## Project Assessment & Evaluation Plan (PAEP)

- What is a PAEP?
  - Documents the grantee's intended actions towards goals
  - A roadmap and tracking device to achieve results
  - Summarizes information that will be collected during project

### PAEP – What is a PAEP?

- Identifies measures that can be used to monitor progress
- A tool for grantees and grant managers to determine fulfillment of grant requirements
- Maximizes value of public funds to achieve environmental results/benefits

## PAEP - Purpose

- Can answer questions:
  - Does the Project meet the intent of the Bond Act and Funding Program?
  - Are the Project Goals realistic?
  - Have ecosystem health and water quality improved as a result of the \$\$ awarded?
  - Which stressors on the ecosystem are the most important ones in my watershed?

### PAEP

#### **Project Activity Categories:**

- 1. Planning, Research, & Assessment
- 2. Education, Outreach, & Capacity-building
- 3. Habitat Restoration

### PAEP

#### **Project Activity Categories:**

- 4. Pollutant Load Reduction
- Water Conservation, Reliability Enhancement, & Recycling
- 6. Flood Attenuation & Floodplain Protection

## PAEP – Performance Measure Table

Project Goals	Desired Outcomes	Output Indicators	Outcome Indicators	Measurement Tools & Methods	Targets
1. Who, what, by when, & how?	What do you want by the end of your project?  The desired outcome should be achievable, measurable, and as tangible as possible.  The desired outcome should be able to be met by reaching your goal stated.  However, you may have multiple desired outcomes per goal.	1. What things will be produced as a result of working toward your goal?  And what are your measurement units for measuring these things produced?  The units should be general quantitative units of output.  Output Indicators can be an indirect measure of your goal.	1. What quality, social behavioral or environmental condition, will be changed to indicate that the goal will be met?  And what are the general measurement units for measuring these changes?  Outcome Indicators should be units to measure your goal directly.	<ol> <li>Tools- What will you use as a ruler to measure the target?</li> <li>MethodsWhat is the name of the scientific method being used? -Can it be sited from somewhere or explained? -Will it be in your QAPP or Monitoring Plan?</li> </ol>	1. What is the specific measurement you would like to reach by the end of your goal deadline, that will indicate you have reached your desired outcome?  Note: The measurement units should match the measurement units stated in the Outcome Indicator Column, & be measured using the tool & method stated in the Measurement Tools & Methods column.  There may be multiple targets for each goal & desired outcome.

### PAEP

PAEP targets for stormwater projects must include:

- Post-project flow reduction in cubic-feet
- Percent reduction in targeted constituents of concern
- Quantified targets for outreach efforts too

### PAEP - Pollutant Load Reduction

- Percent increase in benthic macro-invertebrate diversity
- Percent decrease in adverse effects biomarkers and targeted toxic samples (even-based water toxicity, sediment toxicity)
- Reduction in event mean concentration before and after BMP implementation
- Volume of runoff treated by structural BMPs compared to average runoff volume in project area

### PAEP - Pollutant Load Reduction

- Estimated or directly measured mass of a specific pollutant that BMP Implementation prevented from reaching surface water or groundwater
- Reductions in peak flow or total runoff
- Percent decrease in pollutant use and/or discharge
- Percent increase in certified practices designed to result in reduction of pollutant inputs into listed water bodies

### PAEP – Performance Measure Table

#### **Pollutant Load Reduction**

Project Goals	Desired Outcomes	Output Indicators	Outcome Indicators	Measurement Tools & Methods	Targets
1. Reduce stormwater discharge volume	1. Reduce stormwater total runoff volume and peak flow	1. Convert impervious surface area to pervious	1. Volume of infiltration through pervious surfaces	1. Hydromodification modeling	1. Reduce stormwater discharge volume by 150,000 cf annually, based on 14" average annual precipitation
2. Reduce the TSS concentration in stormwater runoff	2. Meet the TSS TMDL load allocations	2. Create multiple bioretention BMPs in the drainage area	2. Percent reduction in concentration for TSS in stormwater influent vs. effluent flow	2. Grab samples of storm flows in BMP influent and effluent	2. Reduction in TSS in BMP effluent by 80%

# Monitoring Plan (MP) and Quality Assurance Project Plan (QAPP)

- MP Required if project includes Water Quality or environmental monitoring
  - Locations, frequencies, media, and constituents
  - Field sampling protocols
  - Responsibilities
- QAPP Ensure data quality meets project needs
  - Data Quality Objectives and Indicators
  - Standardized procedures/Quality Assessment Plan
  - Quality Control samples
  - Data validation and management (CEDEN)

# Reporting

- Progress Reports
  - The basis of all reports for life of grant
  - Quarterly
- Annual Report and PAEP Update Status
  - Based off of Progress Reports and Approved PAEP
  - Used to build Final Report
- Final Report
  - Summarizes the overall project
  - Use previous Progress Reports and Annual Reports to complete

- Should include:
  - 1. Summary of Work Completed to Date
    - Deliverable Table from Grant Agreement
  - 2. Progress Report Narrative
    - a) Introduction
    - b) Summary of Activities for Reporting Period
    - c) Summary of Items for Review
    - d) Summary of Items in Progress
    - e) Additional Information
    - f) Photos

### 1. Summary of Work Completed to Date

Grant Progress Report

2(a): Progress Report Narrative: Introduction

- Should be a summary of the project
- Provides the necessary detail to fully describe project to an outside onlooker

2(b): Progress Report Narrative: Summary of Activities

- Describes what was completed this reporting period
- Should justify reimbursement AND matching funds

2(c-d): Progress Report Narrative:

1. Summary of Items for Review

2. Summary of Items in Progress

#### Summary of Items for Review

Invoice #2

Project Administration (Cumulative <u>5</u>% complete)

Project administration included the compilation of Invoice 2 and submittal of the Mitigated Negative Declaration for comments from the public. The final MND will be submitted in the following reporting period.

Monitoring Report – Quarter 4 2011

Monitoring Report (Cumulative 10 % complete)

The monitoring report for the fourth quarter of 2011 is included for review. In general, the sampling results were as expected. Continued monitoring and reporting will continue for the life of the grant.

Mitigated Negative Declaration (DRAFT)

Mitigated Negative Declaration (DRAFT) (Cumulative 100 % complete)

The MND was completed and submitted for public comments on February 15, 2013. The comment period was open for 30-days. Minimal comments were received. The Final MND will be submitted in the following reporting period with all comments being addressed.

#### Summary of Items in Progress

EXHIBIT A

- Non-Point Source Pollution Reduction Project Follow-up Survey Form (Cumulative <u>0 % complete</u>) This deliverable has yet to begin.
- Monitoring Reports (Cumulative 10 % complete) Monitoring began last quarter; two monitoring reports have been submitted for review.
- 5 Proof of WQ Data Submission to CEDEN (Cumulative 20 % complete) As results are available, they are being uploaded into the CEDEN database as required.
- 6 CEQA Documentation (Cumulative 90 % complete) As mentioned above, the Draft MND went out for public review and comments were received; a copy of the Draft MND is submitted with this report.
- Public Agency Approvals, Entitlements, or Permits (Cumulative 80 % complete) One land owner agreement is pending; however, we have received a letter of support from that land owner and the agreement is expected to be completed by the next reporting period; Coastal Development Permit and RWQCB 401 Certification; the Streambed Alteration Permit (DFG 1600) is pending finalization, which is expected to be completed by May 2013.

#### EXHIBIT B

- 1 Progress Reports (<u>Cumulative 20 %</u> complete) continues on a quarterly basis; no delays or issues to report.
- 2 Annual Progress Reports (<u>Cumulative\_10</u>% complete) The first progress report has yet to be required; however, progress is being made with each quarterly Progress Report.
- Awarded Bid Documents (Cumulative 80 % complete) The bid documents have been completed and are in review with the City's Engineers. The project is expected to go out to bid in May 2013 and be awarded in July 2013. The project is ahead of schedule for this task.

- 2(f): Progress Report Narrative: Photographs
  - Include photographs of the Project's progress
    - Before
    - During
    - After
  - Outreach can include:
    - Brochure &/or mailer
    - Training materials
    - Other outreach items

# Reporting Annual & PAEP Update

Two reports are now combined into one

 Should summarize your year of quarterly Progress Reports

# Reporting Annual & PAEP Update: Content

Will include the following:

- 1. Background
- 2. Project Description
- 3. Project Status
- 4. PAEP Status Update

# Reporting Annual & PAEP Update: Content

#### 4. PAEP Status Update should include:

- Are targets being met?
- Staying on task?
- List targets and discuss each
- Is an updated PAEP needed?
- If so, an updated PAEP should be included

### Reporting Final Project Report: Goals

- Capture project importance
- Highlight specific achievements
- Identify lessons learned
- Tells public what you did and why it was a good use of State funds
- Will be uploaded into FAAST

# Reporting Final Project Report: Content

- Title Page
- 2. Table of Content
- 3. Executive Summary
- 4. Background (What was the problem?)
- 5. Project Description (What was the solution?)
- 6. Public Outreach
- 7. Project Evaluation and Effectiveness
- 8. Conclusion
- 9. Appendices

# Reporting Final Project Report: Summary

 <u>Draft Report</u>: ~ 2-3 months prior to work completion date

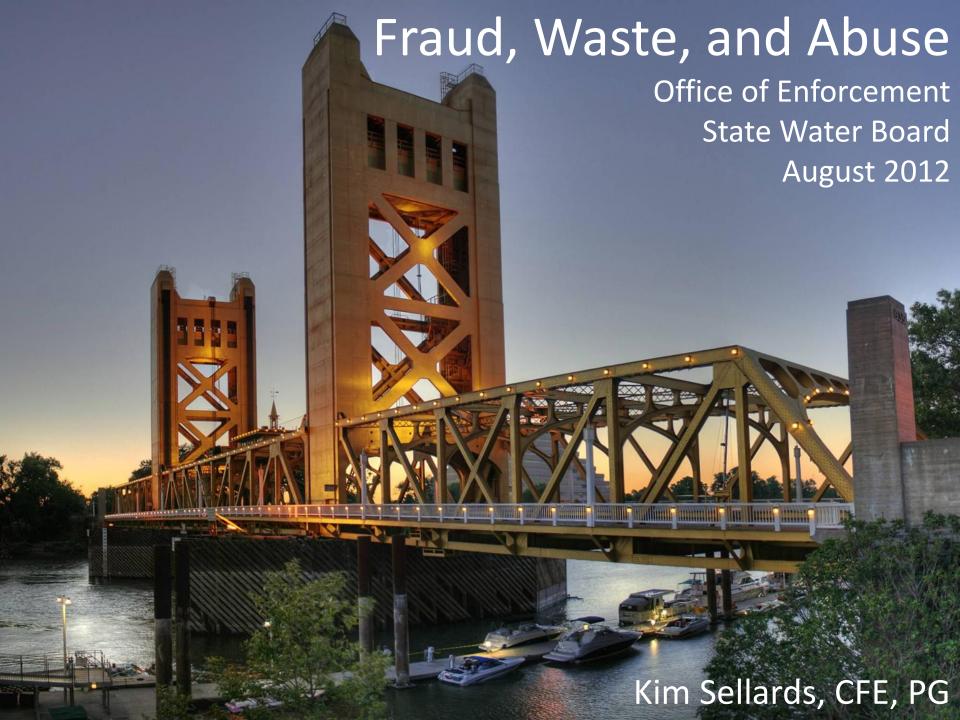

<u>Final Report</u>: MUST be submitted before work completion date

- 3. Investigations

Fraud, Waste, & Abuse

What is Fraud?

Black's Law Dictionary defines fraud as:

"a knowing misrepresentation of the truth or concealment of a material fact to induce another to act to his or her detriment"

### How Much Fraud Is There?

STATE OF CALIFORNIA

#### OFFICE OF THE INSPECTOR GENERAL

AMERICAN RECOVERY ACT FONDS

FOR IMMEDIATE RELEASE Wednesday, August 12, 2009 FOR MORE INFORMATION: Rob Wilcox 916-397-8240

Federal, State and Local Officials Warn of

... we've come to realize that 10 to 15 percent of the federal funds expended are lost to fraud, waste and/or abuse."

billions of dollars in Stimulus and Recovery Act funds are doled out in California over the next few years. Whether in defense procurement, health care, infrastructure replacement, housing subsidy or disaster relief programs, to name a few we've come to realize that 10 to 15 percent of the federal funds expended are lost to fraud, waste and/or abuse," said Joseph P. Russoniello, U.S. Attorney for the Northern District of California. "We are determined to do everything in our power to break that cycle.

"Working with our partners in state and local prosecutors' offices and with the California and federal Offices of Inspectors General, we hope to identify, early on, recipient-based scams and other artifices," Russoniello continued. "We will then use the full force of our audit and enforcement authority to prevent taxpayer monies from being misspent, if at all possible, and give high priority to the prosecution of unscrupulous individuals and enterprises intent on illegally benefitting from programs designed to help Californians get through this economic downturn."

### OWNERS OF SOUTHERN CALIFORNIA ENVIRONMENTAL CONSULTING FIRM CHARGED WITH FRAUD

State Water Board and State Attorney General Announce Arrests

Contact: Kathie Smith – (916) 341-5263

FOR IMMEDIATE RELEASE May 10, 2012

**SACRAMENTO** – Today, the State Attorney General's Office charged Kurt and Julie Hayden, owners of Hayden Environmental Inc. (HEI), a Santa Barbara-based environmental consulting firm, with fraudulently obtaining money from the State Water Resources Control Board's (Water Board) Underground Storage Tank Cleanup Fund (Cleanup Fund).

The arrest and criminal charges of the Haydens came after agents searched the couple's multi-million dollar residence in Santa Barbara and their vacation home at June Lake, California. Agents seized numerous boxes, which contained records implicating the Haydens in the fraud. If convicted, Kurt and Julie Hayden could each face up to five years in state prison.

The criminal complaints allege that the Haydens, and their company, HEI, conspired to commit grand theft, committed grand theft, and presented fraudulent claims for reimbursement of work that was not performed, all of which are felonies under California law.

The Haydens are alleged to have received money from the Cleanup Fund for performing work in Santa Barbara during a time when the couple was known to be in Costa Rica. In addition, the complaints allege that the couple inflated invoices for other work, resulting in the Cleanup Fund overpaying as much as 200 percent on some charges, through overbilling for equipment and payroll.

#### The Fund has several ways for you to report fraud:

- Email us at <u>reportfraud@waterboards.ca.gov</u>
- Call our toll-free message line at 1-855-263-0863
- Complete our <u>Fraud Reporting Complaint Form</u> and return to us by:
  - Email at: reportfraud@waterboards.ca.gov
  - Mail forms to: State Water Board Office of Enforcement P. O. Box 100 Sacramento, CA 95812
  - → Fax forms to: (916) 341-5896
